

### **The sad result of Bloody Fridays in Zahedan and Khash**

It has been seven months since the movement of #Zan\_Zandagi\_Azadi (Woman, Life and Freedom) has begun on September 2022.

On the 30<sup>th</sup> of September 2022, after the Friday prayers, protestors mainly belonging to Baluch ethnicity in the Sistan and Baluchistan provinces of Iran joined in the nationwide demonstrations that erupted after the murder of Jina Mahsa Amini. In order to contain the protestors, the Islamic Republic of Iran's security forces retaliated by killing over 95 people and injuring 400 others in a single day. 30<sup>th</sup> September 2022 has been recorded in Iran as the Bloody Friday of Zahedan in Balochistan's history. After the massacre in Zahedan, protests erupted in other cities of Iran such as Khash, Saravan, Iranshahr etc. On November 04<sup>th</sup> 2022, police forces carried out another brutal crackdown in Khash with at least 8 dead and dozens injured. Furthermore, two other people have also been killed in other areas in connection with the protests.

Baloch people in Zahedan have suffered many physical and financial losses during the massacres in Zahedan and Khash. Due to the increase in security measures, people's mental health and wellness also suffered as they felt they were under siege. A doctor has claimed to have provided first aid to 250 injured people. The names of 70 people who were killed have been registered with the necessary documents in the Makkah Mosque Charity Institute so that the survivors of these victims can receive monthly allowances.

Eighty per cent of the funds of the charity organization is being spent on helping injured people. The institution can only spend up to 1000 million rials and not more for the treatment of each injured person. The Makkah Mosque charity organization can also not afford to spend more. The cost of artificial hand and foot "prosthesis" reaches 2500 million rials, the cost of hospital, wheelchair, bed, mattress and medicine is very high. The cost of the needs of the injured people is more than the costs of the victims. The number of injured is high and the need for help is constantly increasing.

### **The urgent needs of the families of Black Friday martyrs**

The number of martyrs of Zahedan and Khash has reached more than 120 people. This means that at least 120 families have lost their breadwinners. The families of many victims have been intimidated by the security forces and have also been prevented from working. In some cases, the properties and vehicles of the victims, including cars and motorcycles, have been confiscated. Security forces are pressurizing the family members of the victims so that they don't claim blood money (mandatory compensation as per Iranian law) after killing of their loved ones. In order to continue the resistance for accountability and justice, the families of the victims need to be financially able to pay the house rent, food and other basic expenditures so that they could continue demanding justice and accountability.

### **Victims and prisoners student children**

Victims and prisoners children are under pressure like other family members. In many cases, families are unable to pay for their children's education. Staying away from education makes a future impossible for this group of children. This is the pressure that the security forces exert so that their parents submit to their demands, to give up on their right to blood money of their loved ones and give consent.

### **Baloch prisoners family**

The arrest of hundreds of people in Balochistan demonstrations and the harassment, abuse, torture and rape of the prisoners have made the lives of innocent Baloch prisoners' families miserable. The daily involvement of families with various issues and problems, summoning, questioning, closing the business, writing repentance letter, etc., has caused these families to be involved in issues that directly affect their finances, income and career.

Daily threats to arrest other members of the family and continuous harassment have put these families under mental and emotional pressure so that they surrender and do not take any action to defend their prisoners and they can't publish the news to the social media, in fear for the life of prisoner who could be executed.

### **Youngsters of the area(neighborhood)**

The youngsters of the neighborhoods(nearby areas) organize the demonstrations by taking all the risks. These revolutionary youths need a lot of resources, so they can organize protests with less risk, facilities, such as a place, a house, a motorcycle, a car, and mobile phones that can increase their movements and security.

### **Demonstration injuries**

Bloody Friday of Zahedan left many injured. Among the injured, some have died, some are under medical care for treatment in hospitals or at home, some are paralyzed and need wheelchairs. Some who do not have the cost of treatment must stay at home. Some of the victims do not have birth certificates and are not included in any statistics. Some people, for whatever reason, do not want to announce that someone in their family has been killed or injured.

### **Women presence in demonstration**

This withdrawal is due to the rape of female prisoners that was purposefully carried out in the prisons of the IRI. The presence of women in demonstration is decreasing in recent weeks this is due to pressure build up by security forces and the possibility of arrest and rape of women. Raped women desperately need psychiatric and medical services to help them return to a normal life and prevent possible suicide attempts. These heroic women need to be rehabilitated and protected to

return to the stage of political activities and to participate in demonstrations to see themselves as useful and respected members of society.

There is a lot of Baloch women who are still in prisons and have not been able to hire a lawyer due to the family's financial situation.

Extreme poverty among the Baloch people makes it somewhat impossible to provide assistance to the injured, disabled and survivors who are under pressure or wanted by the security forces instead of paying compensation and facilitating government medical and treatment assistance. The heavy burden of providing aid fallen on Baluch society and it is increasing the poverty.

### **The victims and their families**

The identity of the people who were killed on 30<sup>th</sup> September 2022 in Zahedan, and who have sufficient identification documents is 95 people and 8 people on (date) in Khash and 2 people on (date) in Zahedan. There are no statistics on the number of people killed without ID. Seventy families who lost their breadwinners during crackdowns in and after Zahedan massacre are covered by the help of Makki Mosque charity. These people receive a monthly allowance from the institution. There are families who have not declared their dead or injured for different reasons.

The security forces put pressure to these families in various ways. These families want to prosecute the perpetrators of this horrible crime in a free and impartial court with human rights standards.

### **Executed people and people sentenced to death.**

Although the Baloch population in the country is less than 5%, but in the list of executioners, the share of Baluchistan is 30%, which shows that the rate of executions is the highest in the country. During the "Women-Life-Freedom" movement, most of the executions were related to the Baloch people. Executions in Balochistan are carried out politically and to create fear and terror so that the roots of demanding the rights of the Baloch people disappear.

Five Baloch teenagers who protested on Bloody Friday in Zahedan have received a death sentence which is a violation of human rights in Balochistan. The families of these people are not in a financial position to hire a lawyer for them. These families are under pressure. When ever the Islamic Republic of Iran needs to create fear and terror, it may execute these five people. Only the pressure of international forces and the intervention of the governments of the free world can push the Islamic Republic back from executing the innocents.

Killing, imprisoning or executing people who are the breadwinners of their families has made life difficult for the family members, the help of the Baloch community.

The share of this peaceful and unarmed demonstration for the people of Balochistan specially Zahedan was nothing than:

- Killing and injuring many men, women and children on Friday 30<sup>th</sup> September 2022.
- Arresting many of those innocent who were in the street without any being participants of the protest.
- Preventative medical treatment action by IRGC for the injured demonstrators in Zahedan hospitals.
- Forced confessions of some citizens in front of the camera of the Islamic Regime.
- There are unreported number of dead and injured demonstrators.
- Disconnection of Internet.
- Formal announcement of Martial Law in Zahedan not allowing more than two people being together.

### **Conclusion**

The number of injured people is around 400, and the aid for each ordinary injured person is up to 100 million tomans, who are not able to afford more.

About 15 disable people who need help and the cost of each person to buy artificial hands and feet is 250 million toman.

Some of them are in wheelchairs and need special beds and mattresses, and many of them need medicine, which we cannot afford, but we pay as much as we can.

The number of disabled people who need prosthetics or artificial limbs is about 15 people and the cost of prosthetics is 250 million Tomans. Some of these injured people have spinal cord amputations  
The number of victims and their families who have been registered so far and they receive a monthly salary of 100 dollars is about 70 people.

The number of prisoners is very high and we do not have accurate statistics

List of arrested Baloch people who were in demonstration

### **Baloch Prisoners**

- 1- Kambiz Khorut was arrested on 01st ,October 2022 in Zahedan and was released about three weeks later after posting bail.  
He was arrested again in October from inside his shop in Karimabad area of Zahedan by intelligence forces.  
He was subjected to severe torture in the intelligence detention center and was not allowed to get a lawyer of his choice.  
Kambiz has denied all the charges brought against him in court, but the prosecutor of Zahedan, Mr. Mehdi Shamsabadi, requested the death sentence for him, and the judge did not pay attention to Cambiz's defenses.  
On the 21ST of January 2023, Amnesty International announced in a call for urgent action that at least 14 people arrested in the nationwide uprising of 2022 from all over Iran have been sentenced to death and are in danger of execution. it is stated that the Iranian authorities have violated the principles of fair trial and, in addition, most of these people have been subjected to torture by using whips, electric shocks, artificial executions, rape and other sexual violence. The name of Kambis Khorot was also among these 14 people.

- 2- Nizam al-Din Hoot is a 21-year-old resident of Chabahar who was arrested on 23<sup>rd</sup> September 2022 in Chabahar and was taken to prison about two weeks later. On 23<sup>rd</sup> December 2022, he was sentenced to death in the second criminal branch of the court located in the judicial complex of Shahid Nouri, Zahedan, on the charges of corruption in the land, war, gathering, and conspiracy to act against national security. He has protested against the issued decision. Mr. Hoot's family has been strongly pressured by the Intelligence Department forces not to publish the news of the death sentence in the media. During his detention, Nizamuddin Hoot signed papers and put his fingerprints under torture and threats from the security interrogators.
- 3- Mansour Hoot 27-year-old son of Kamal Khan, a famous Balochistan poet and writer, a resident of Chabahar, who was arrested on September 23, 2022 in Chabahar. On November 22, 2022, he was transferred from the detention center of the Intelligence Department to Zahedan prison. On the 08 of January, 2023 he was sentenced to death in the second criminal branch of the court located in the judicial complex of Shahid Nouri, Zahedan, on the charges of corruption in the land, war, assembly and collusion against national security. Mr. Hoot was subjected to physical torture in Zahedan Intelligence Department detention center to such an extent that he passed blood instead of urine and during his detention, he signed and fingerprinted papers under torture and threats from security interrogators.
- 4- Mansour Dehmardeh is 23 years old and from Zahedan. At the time of his arrest, Mr. Dehmardeh was working as an assistant bus driver in Zahedan, and according to some sources, he has a physical disability.
