

Human Rights violations in Balochistan committed by the Iranian Regime on May 2020

The Iranian law and enforcement forces kill Baloch citizens on a daily basis in extra judicial killings and continues to disseminate insecurity by means of threat, arresting and harassing ordinary civilians in Balochistan.

Baloch people who work to earn a living in order to feed their families are in a situation where there are no jobs and the economic infrastructure in Balochistan is bad. Men and youth are forced to smuggle fuel from Iran to the other side of the Pakistan border in order to earn money and by doing so put their lives in danger. Most of the time security forces open fire without any warnings directly at the vehicles that are carrying gallons of flammable fuel which most of the time causes death and major casualties. The military forces abandon the dead bodies and injured people without any help at the scene of the shooting, resulting in the death of the injured there and then.
